HB 1416 (88R) Supplemental Accelerated Instruction

Did the student achieve Approaches Grade Level or higher on STAAR?

- YES → **Supplemental accelerated instruction not required**
- NO ↓

Did the student fail the same STAAR content area the previous school year?

- YES → **AEP + 30 hours of supplemental accelerated instruction required**
- NO ↓

Did the student score in the Low Does Not Meet category?

- YES → **30 hours of supplemental accelerated instruction required**
- NO ↓

15 hours of supplemental accelerated instruction required

Incoming 4th graders who did not achieve Approaches Grade Level or higher on a grade 3 STAAR are required to be provided 30 hours of supplemental accelerated instruction for each applicable content area.

Other Considerations:

- Supplemental accelerated instruction is not required for a student who is retained nor for a student who took STAAR Alt 2.
- Schools are required to provide supplemental accelerated instruction in up to two content areas, prioritizing math and RLA.
- A parent may request to modify or remove the required supplemental accelerated instruction if a student has a failed STAAR score OR completed a BOY assessment if a student did not test.
