Smartsheet: Confidential Information Statement

Confidential information, including confidential information or personally identifiable information (PII) protected under the Family Educational Rights and Privacy Act (FERPA), should not be submitted in any Smartsheet forms, attachments, comments, or uploads. Smartsheet is not an approved system for storing confidential or FERPA-protected data. Uploading or sharing such information on an unapproved platform increases the risk of unauthorized disclosure. To help us maintain compliance and protect student information, ensure all submissions include only non-confidential data/documentation appropriate for the submission.

Documentation Requested

Documenting overall compliance for a program requirement may require several forms of documentation to be maintained locally and available upon request by TEA and/or an auditor.

To ensure overall compliance with program requirements, LEAs should refer to the Program Guide and/or other program-related resources that reference the multiple forms of documentation required to be maintained locally.

The documentation requested for submission during the validation process may not include all forms of documentation that are required to be maintained locally.

Meeting Documentation

Documentation for virtual meetings is acceptable.

Given the increased use of virtual meeting environments, participant rosters that include the meeting title, meeting date, and stakeholder names and roles would be acceptable substitutes for the more traditional sign-in sheets. This eliminates the need of a participant signature.
