Citation. Texas Education Agency. (2025). *List of Texas public school campuses on year-round education calendars, 2024–25* (Document No. GE26 601 03). Austin, TX: Author.

Abstract. The Texas Education Agency (TEA) is required by Rider 43 (General Appropriations Act, Article III, 89th Texas Legislature) to provide a list of schools operating on a year-round system. This report contains a list of the 2024–25 campuses operating on a Year-Round Education (YRE) calendar as determined through analyzing district-reported data related to calendar instructional days for campuses throughout the academic year.

Additional information about this report may be obtained by contacting the Texas Education Agency, Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at ProgramEvaluation@tea.texas.gov.

Section 1: Introduction

Year-Round Education Overview

Although there is no single definition of year-round education (YRE), schools that operate under a year-round calendar typically reorganize the school year without any extended breaks in instruction, instead redistributing traditional breaks (i.e., 10-week summer vacation) to create regular breaks throughout the calendar year (Skinner, 2014). The intent of year-round attendance calendars is not necessarily to increase the total number of days of instruction, but instead to provide districts the flexibility to restructure their academic calendars to meet local education needs. Proponents for YRE contend that longer academic periods and shorter breaks may help students receive remediation and enrichment activities more frequently and retain knowledge that otherwise may be lost over an extended break (Fitzpatrick & Burns, 2019; Skinner, 2014). Opponents note, however, that year-round schedules can interfere with extracurricular activities and burden parents, particularly if their children attend schools that adopt different schedules (Fitzpatrick & Burns, 2019; Skinner, 2014).

YRE calendars characteristically have earlier start and end dates compared to the traditional calendar and divide the traditional three-month summer holiday into multiple breaks throughout the year. Common examples of YRE calendars include the 45/15 plan (i.e., 45 days of instruction followed by 15 days of intersession), the 60/20 plan (i.e., 60 days of instruction followed by 20 days of intersession), and the 45/10 plan (i.e., 45 days of instruction followed by 10 days of intersession) (Skinner, 2014). YRE schools may

operate on a single- or multi-track schedule, in which students are either all on the same schedule or follow different schedules (Fitzpatrick & Burns, 2019; Simmers, 2025).

In 1995, the 74th Texas Legislature added language to the Texas Education Code (TEC) allowing Texas public school districts the opportunity to modify their campuses' calendars to operate on a year-round system (TEC §25.084, 1996).

According to TEC §25.084 (2025), districts with campuses operating on YRE calendars may modify any of the following:

- The number of contract days of employees and the number of days of operation, including any time required for staff development, planning and preparation, and continuing education, otherwise required by law;
- Testing dates, data reporting, and related matters;¹
- The date of the first day of instruction of the school year under TEC §25.0811 for a school that was operating year-round for the 2000–01 school year; and
- A student's eligibility to participate in extracurricular activities when the student's calendar track is not in session.

Texas public school districts and campuses that operate on a YRE schedule are not required to follow a particular year-round calendar structure (e.g., 45/15 plan or 60/20 plan) and can instead tailor their calendars to meet the needs of relevant stakeholders (e.g., students, faculty, families, community members). Texas public school districts that operate on a traditional

¹ The Texas Education Agency Assessment Division did not receive any requests from Texas public schools for modifications to the testing calendar window for the 2024–25 school year.

calendar can also tailor their calendars but are limited by statutory restrictions. For example, for campuses operating under a traditional calendar, the first day of instruction cannot be scheduled for earlier than the fourth Monday in August, and the last day cannot be earlier than May 15th, except under certain conditions.² Exceptions to the statutory restrictions on the first and last day of instruction do exist. Most notably, TEC Chapter 12A (2025) allows for the creation of Districts of Innovation. This designation gives districts additional flexibilities in structuring their academic calendars.³

Purpose of Report

Rider 43 (General Appropriations Act, Article III, 89th Texas Legislature) requires the Texas Education Agency (TEA) to maintain a list of schools operating on a year-round system under TEC §25.084. TEA shall provide these lists of schools by January 1, 2026 and January 1, 2027.

This report presents a list of campuses operating on a year-round calendar in 2024–25 as determined through an analysis of the specific calendar days in which a campus was open for instruction using Public Education Information Management System (PEIMS) data as reported by districts through the Texas Student Data System.

Pursuant to TEC §25.081 (2025), for the purposes of funding, TEA requires districts to annually report campus calendar information. PEIMS submissions for this requirement include a calendar event descriptor indicating student instructional days or waiver days. Student instructional days were used in this analysis.⁴ The analysis in this report applies a methodology to systematically identify campuses that appear to be operating on a year-round schedule in 2024–25 based on the data available to TEA through PEIMS.^{5,6}

Organization of Report

The remainder of the report is organized as follows: Section 2 provides details regarding the sources of data compiled for this report and the methodological techniques used to determine whether a campus appears to be operating on a year-round schedule. A discussion of these findings is presented in Section 3, along with a discussion of methodological limitations that should be considered when interpreting results.

Appendix A is the list of YRE campuses for the 2024–25 school year as determined through an analysis of calendar data available in PEIMS.

² Per TEC §25.0811 (2025), campuses operating on a traditional calendar may not begin instruction for a school year before the fourth Monday in August, except as provided by TEC §7.056(f) (2025), TEC §§25.0811–12 (2025), or a designated District of Innovation's Local Innovation Plan developed under TEC §12A.003 and Title 19 of the Texas Administrative Code [TAC] §102.1307, 2025, amended to be effective October 25, 2022.

³ Districts are eligible for this designation if certain performance requirements are met, and the district follows specific procedures for adoption as outlined in statute. As part of this procedure, districts are required to develop a Local Innovation Plan that provides for a comprehensive program for the district that may include innovative curriculum and instruction as well as modifications to the school day or year, allowing Districts of Innovation flexibility in terms of scheduling the first and last days of instruction (19 TAC §102.1307, 2025, amended to be effective October 25, 2022). As of November 7, 2024, in the 2024–25 school year, the commissioner of education had been notified of 987 Districts of Innovation operating in the state. See TEA's webpage about [Districts of Innovation](#) for more information.

⁴ Requirements for PEIMS reporting vary by campus instructional program type. Details may be found in the [Texas Education Data Standards](#).

⁵ Previous YRE reports that include lists of campuses that were identified and detailed methodology used to obtain campus lists are published at [Program Evaluation: Other Initiatives](#).

⁶ Year-round status of campuses operating in 2025–26 could not yet be determined through this methodology because the 2025–26 calendar data were not available in PEIMS in time to meet the legislative reporting requirement of January 1, 2026 for this report. Data for campuses operating in 2025–26 will be available in September of 2026 and will be used to report the list of 2025–26 YRE campuses on January 1, 2027.

Section 2: Data and Methods

Data Sources

To determine year-round status for Texas public school campuses, the specific calendar days each campus was providing instruction were obtained through PEIMS. Calendar days were determined based on the days in which districts reported the calendar event as an “instructional day.” The data file included information from 9,349 campuses from 1,211 districts in Texas that had reported calendar data to TEA.

Identifying Year-Round Education Campuses

TEA used PEIMS data to identify specific patterns of instructional days that are characteristic of YRE campuses. Nevertheless, districts in Texas are not required to follow a particular calendar structure for year-round operation; a year-round calendar can be implemented by districts in various ways. For example, some YRE calendars may consist of four 9-week sessions with two 2-week intersession breaks between the first and second and the second and third 9-week sessions. A longer (4-week) break, typically over the summer, separates the end of one school year from the following school year. Other YRE campuses may adopt a trimester schedule with three 12-week sessions separated by breaks throughout the year. One commonality of many YRE campuses is the absence of a long (8–10 week) summer break in instructional time and the presence of more frequent breaks.

Given the lack of statutorily prescribed year-round calendar structures in Texas, a method

of estimation based on calendar commonalities was employed for this report. To estimate the list of campuses that appear to be operating on a year-round calendar in the 2024–25 school year, campuses had to have met at least one of the criteria in Table 1.

Campuses that reported instructional days in twelve consecutive calendar months or that recorded frequent breaks (spans where no instructional days were recorded) were selected. Patterns of frequent breaks were identified in campuses that began no later than the first Monday in August and had instructional days in 11 of the 12 months, or campuses that had at least ten percent of their total instructional days in August, at least ten percent in September, and at most ten percent in October.⁷

Table 1. Year-Round Education Campus Selection Criteria

Area	Item	Criterion Name	Criterion
Year-Round	A	12-Months	Instructional days reported in 12 consecutive calendar months.
	Frequent Breaks	B1	Early Start + 11 Months
B2		October Break	At least 10% of total instructional days in August, at least 10% of total instructional days in September, and 10% or fewer of total instructional days in October.

⁷ More information about PEIMS reporting submissions may be found in the [Texas Student Data System Web-Enabled Data Standards](#).

Section 3: Discussion of Findings

Overview of Results

In the 2024–25 school year, as determined through an analysis of available data described in the previous section, 59 public school districts in Texas were determined to have campuses that appear to operate on a year-round schedule (353 campuses total). The list of YRE campuses by district can be found in Appendix A, page A-1. A total of 30 new campuses were identified as operating on YRE calendars for 2024–25 that were not included in the 2023–24 list, and 231 campuses identified in 2023–24 were not identified for the 2024–25 list.

Study Limitations

The 2024–25 list of YRE campuses, presented in Appendix A (see page A-1), was created from self-reported PEIMS data. Several analytical techniques were used to determine campuses likely operating on a YRE calendar including the distribution of instructional days throughout a twelve-month period and patterns of breaks that are common in YRE calendars.

The primary limitation of estimating year-round status using any methodology is the lack of a clear definition of YRE in Texas or nationally, which hinders TEA from using a single clearly-defined set of parameters to determine whether a campus is operating on a YRE calendar. To estimate the list, the analyses conducted for this report included

campuses with recorded instructional days in twelve consecutive calendar months, or campuses that met criteria for scheduling frequent breaks throughout their school year (see Table 1). These criteria were set based on an examination of the data and knowledge of common patterns of instructional days in YRE campuses in Texas but may not be fully representative of how all YRE campuses in Texas implement a YRE calendar. Additionally, given districts have the authority to modify school calendars within certain statutory limitations, particularly campuses within Districts of Innovation, Additional Days School Year (ADSY) campuses, and schools adopting a four-day school week, the current analyses may have categorized some campuses as YRE that may not have self-identified as YRE or missed some campuses that would have self-identified as a YRE campus. Although a district may not have officially adopted a year-round school calendar, flexibilities statutorily afforded to districts to modify their calendar may create calendar-day patterns that are characteristic of YRE campuses.^{8,9} Future analyses will continue to examine the set of methodological criteria used to create the list, including reviewing the list for consistency and change over time to publish the most accurate campus list possible.

⁸ ADSY is intended to allow districts to supplement, by up to 30 days, the 180-day and 75,600 minute requirements during which all students receive Texas Essential Knowledge and Skills instruction. Student attendance is non-compulsory on supplemental days, and districts may choose from among several options for how to use these days. In 2024–25, there were 292 campuses implementing an ADSY program for any students in prekindergarten through fifth grades as described in TEC §48.0051 (TEA, PEIMS, 2024–25).

⁹ In the years since the emergence of the COVID-19 pandemic and resulting teacher shortages, some districts have adopted calendars with various configurations of four-day school weeks. Districts adopting four-day school weeks must still meet the minimum 75,600 minutes of instruction. Some four-day school week campuses may accommodate the shift in their schedule by starting earlier or ending later in the year. In addition, campuses that have days off in the month of October may appear to have an intersession under the current methodology (Table 1).
