Middle School Mathematics

June 2026

Senate Bill (SB) 2124 expanded access to advanced math coursework

Required school districts to fully implement for grade 6 students starting **SY 2024-25**

SB 2124, enacted by the 88th Texas Legislature, requires school systems to automatically enroll students who score in the top 40 percent on the grade 5 mathematics STAAR assessment into advanced mathematics coursework upon entry to grade 6.

Although complete longitudinal data will not be available until **spring 2027**, early indicators suggest the policy is already producing meaningful gains.

*In 2023, the STAAR test was redesigned to better align with classroom instruction, which necessitated re-setting of standards and scales from 2022 to 2023.

This table shows performance by enrolled grade level rather than test taken. For example, 7th grade students could have taken the grade 7 STAAR test, grade 8 STAAR test, or the Algebra I EOC

In its second year of implementation, SB 2141 has already shown increased access to advanced math
